REPUBLIC OF THE PHILIPPINES
DEPARTMENT OF FOREIGN AFFAIRS
MANILA

Note No. 2022-1134

The Department of Foreign Affairs of the Republic of the Philippines presents its compliments to the Diplomatic Missions and International Organizations accredited to the Republic of the Philippines, and further to Note No. 21-4527 dated 31 August 2021 (Annex A), has the honor to inform and convey the following:

1. The Philippine Digital COVID-19 Certificate or the VaxCertPH has been updated to include the information on the booster/additional dose, the new certificate logo, and the enhanced QR code in the vaccination certificate.
2. The features of the VaxCertPH, the mobile verifier applications, and the verification process for the certificate are detailed in the briefer provided by the Department of Information and Communications Technology (DICT). The briefer is attached as Annex B.
3. Moreover, the Department is pleased to provide a sample live specimen of the VaxCertPH, which can be used by relevant authorities to scan and test through the VaxCertPH portal (scanning facility in vaxcert.doh.gov.ph) or through the VaxCertPH Verifier App.
4. Further appreciation is extended to Missions who have facilitated and continue to enable the mutual recognition arrangements of vaccination certificates covering the safe cross-border passage of our vaccinated nationals. We renew our interest to work with those Missions who wish to undertake the exchange of notes on the recognition of such certificates.
5. The Department requests the kind assistance of the Missions in transmitting the foregoing information to the relevant health and border control authorities of their respective governments.

The Department of Foreign Affairs of the Republic of the Philippines avails itself of this opportunity to renew to all the Diplomatic Missions and International Organizations accredited to the Republic of the Philippines the assurances of its highest consideration.

Manila, 10 March 2022

The Diplomatic Missions and International Organizations
Accredited to the Republic of the Philippines

Cc: All DFA Foreign Service Posts and Offices in the Home Office

REPUBLIC OF THE PHILIPPINES
DEPARTMENT OF FOREIGN AFFAIRS
MANILA

Note No. 21- 4527

The Department of Foreign Affairs of the Republic of the Philippines presents its compliments to all the Diplomatic and Consular Missions accredited to the Philippines and has the honor to convey the following:

1. As of 15 July 2021, the new format of the International Certificate of Vaccination or Prophylaxis (ICVP), also known as "Carte Jaune" or "Yellow Card" is being utilized by the country and as compliant with the prescribed format of the International Health Regulations (IHR) of the World Health Organization (WHO). The certificate is being issued by the Bureau of Quarantine which is under the Department of Health to travelers who have been vaccinated in the Philippines with internationally regulated vaccines (i.e. for yellow fever, polio, and measles etc). Even prior to the COVID-19 pandemic, the ICVP is being issued in compliance with the country's commitment in the IHR. Currently, it is also being utilized as a proof of vaccination for travelers who are fully vaccinated against COVID-19. The ICVP can be further verified online (<https://icv.boq.ph/>) and machine readable with corresponding two-dimensional quick response code. On security implementation, the system is ready to connect and authenticate private keys once the WHO is able to host public keys and provide the corresponding application programming interfaces (API). Further details and a sample of the ICVP is enclosed herewith under Annex A.
2. Moreover, on 03 September 2021, and aside from the issuance of the ICVP as a proof of vaccination for COVID-19, the official use of the Digital Vaccination Certificate (DVC) or VaxCertPH system will commence. The DVC or VaxCertPH is also issued by the Department of Health – and developed with the Department of Information and Communications Technology, to all persons inoculated specifically with the COVID-19 vaccine in the Philippines. The VaxCertPH may be carried by persons within, and travelling outside, the Philippines. Furthermore, being verifiable online and machine readable with a secured two-dimensional quick response code, the VaxCertPH is ready to implement a public-key cryptography system - access to which may be further arranged with border control and quarantine authorities of receiving states and territories. Additional details and a sample of the DVC is attached as Annex B.
3. The foregoing certificates align with the implementing guidelines of the World Health Organization (WHO) Digital Documentation of COVID-19 Certificates: Vaccination Status (DDCC:VS) specific to COVID-19 certificate of vaccination status and to facilitate the implementation of a global certification process. The certificates may be presented in both physical and digital formats.
4. In this regard, the Department requests the kind assistance of the missions in transmitting the foregoing information to the relevant authorities and instrumentalities of their respective governments with a view that it could be considered by them for current or future arrangements – and in furtherance of the possible reciprocal and mutual recognition of COVID-19 vaccine certification.

5. Furthermore, the Department would highly appreciate it if the missions could kindly seek acknowledgement of the abovementioned documents from their respective relevant authorities, as well as identify – and advance further coordination between, focal agencies and persons concerned with their Philippine counterparts to facilitate the option of the exchange of public and private keys for the verification of certificates concerned.

The Department of Foreign Affairs avails itself of this opportunity to renew to all the Diplomatic and Consular Missions the assurances of its highest consideration.

Digital Vaccination Certificate

- ✓ Digital Vaccination Certificate (DVC) is used to **represent the COVID-19 vaccination status** of a citizen of the Philippines and non-Filipino citizens vaccinated in the Philippines
- ✓ The DVC **can be accessed directly by the citizens** through a self service portal, and is secured through public-private key cryptography with QR codes that are verifiable online or offline.
- ✓ Details displayed in the DVC are pulled from the **line list records submitted by LGUs** which are stored in the VIMS database
- ✓ The DVC that documents a vaccinated person's COVID-19 vaccination status can be **considered as proof of vaccination status** for purposes like, but not limited to, international travel.
- ✓ The DVC **complies with the standards set by the WHO: DDCC** and aims to be internationally recognized and accepted in foreign jurisdictions.

| ID | Date of Vaccination | Vaccine Brand (DVC) | Source |

ANDROID

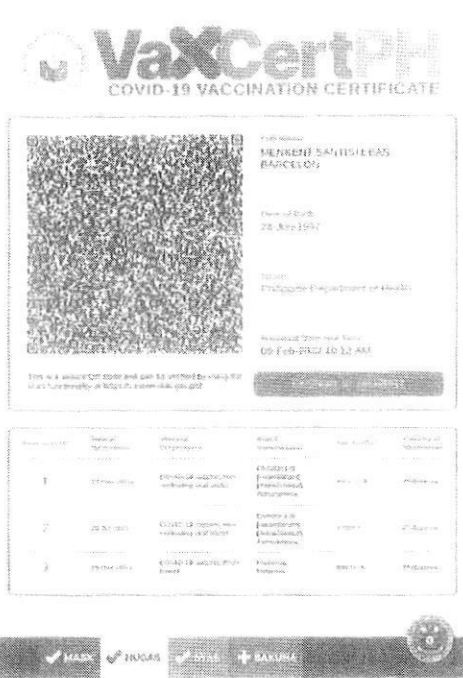

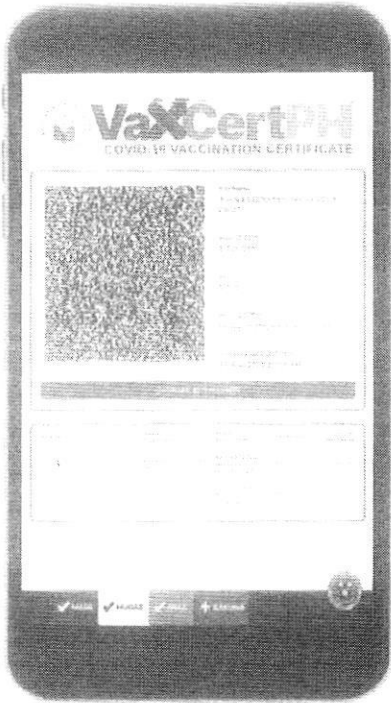

Steps for QR verification:

1. Visit vaxcert.doh.gov.ph or open mobile application
2. Click on "Scan QR" code
3. Point the camera to the QR code on the certificate issued and scan
4. Please keep the following points in scanning the QR code:
 - Complete QR code should be partially visible
 - QR code should be parallel to the camera
 - Camera should be held steadily for 2-3 seconds
 - The red line should be at the middle of the QR code
 - For scanning QR codes on paper, place the QR code under proper lighting so that the scanner can read it easily

NOTE: Built-in scanners in mobile phones or external scanners not having the public key of VaxCertPH are not able to properly scan the VaxCertPH QR code.

República Argentina*

SECON NOTA N.E. N°: 03/2022

The Embassy of the Argentine Republic presents its compliments to the Ministry of Foreign Affairs - Directorate General for Consular Affairs (KOGM) - and has the honor to convey, connected to SECON NOTA N.E. N°: 15/2021, 22/2021, and 24/2021, sent on the 16th of September 2021, 04th of November 2021, and 03rd of December 2021, the latest version of the " BILINGUAL DIGITAL VACCINATION CERTIFICATE" to be found in the "Mi Argentina" phone application provided by the Argentine Ministry of Health in relation to the Argentine National Vaccination campaign which has incorporated a new innovation that will facilitate reading and verification of the certificate. The last sent version of the "DIGITAL VACCINATION CERTIFICATE" contained as many QRs necessary according to the number of doses of the vaccine received, this new version has only a single QR code.

About this new addition to the Digital Vaccination Certificate, we would like to mention the following:

In the application "Mi Argentina" there will be a single QR code, as mentioned above, found on the preliminary screen that shows all the information registered by the Federal Registry of Nominatized Vaccination (NOMIVAC) such as:

- Name of the applied vaccines against COVID.
- Batches
- Shot (doses).
- The date of application
- Where it was applied

This Embassy would highly appreciate it if the distinguished Ministry could convey the above-mentioned information to the relevant Turkish authorities.

The Embassy of the Argentine Republic avails itself of this opportunity to renew to the Ministry of Foreign Affairs - Directorate General for Consular Affairs (KOGM)-, the assurances of its highest consideration.

Ankara, February 22nd, 2022

Annexed: 1 (one) sample copy of the "BILINGUAL DIGITAL VACCINATION CERTIFICATE"
To the Ministry of Foreign Affairs-
Directorate General for Consular Affairs (KOGM)-,
Ankara
